Organic Blood Root is an indigenous Native American Plant used for most skin conditions, to stimulate growth of healthy tissue, clear up infection, and bring warmth and stimulation to the area.

Galangal Root is an aromatic root related to ginger and popularly used in Thai cooking. It has been shown to have antibacterial actions.

Red Clover Flower is a blood purifier that is often used on skin problems to remove toxins and swellings and to aid in tissue repair.

Chaparral is a common desert herb well known as an immune-enhancing botanical used to stimulate growth of healthy cells and elimination of toxins.

Chaga Mushroom grows in the eastern United States and is used as a tonic, pain reliever and blood cleanser.

Calendula Flower is beneficial and soothing for all skin conditions.

Yellow Dock Root, high in natural minerals, is used as a detoxicant and blood purifier.

Sheep Sorrel Leaf & Flower is an ingredient in the popular blood cleansing formula designed by Renee Caisse called Essiac Tea.

Graviola Leaf, native to the Amazon basin, contains phytochemicals known to promote health and immunity.

Burdock Seed benefits the skin and is used as a blood purifier.

Pau D'Arco, from the bark of a South American tree, is used for cleansing and rebuilding the immune system.

Evening Primrose Oil is high in Essential Fatty Acids and reduces prostaglandin levels, which is helpful in treating certain skin conditions.

Neem Oil and **Tea Tree Oil** are powerful medicinal oils similar to Eucalyptus, and are used worldwide for their anti-viral, anti-fungal, and anti-bacterial properties.

Please Note: This product no longer contains zinc chloride.

Caution: For external use only. Do not use during pregnancy or on children. Please refer to the book Cancer Salves for further information.

Additional Support
